

Get ready. Your customers are about to change.

Today, your customers come to drink beer and watch sports on TV with their friends. Next month, they will choose a more immersive TV experience. They will come to your bar for the good beer and also to:

- Watch the game with their friends, in person and around the world.
- Predict the play-by-play outcome on their phones, during every break.
- Accrue points and status throughout the season, with every accurate prediction.
- Compete with their friends and frenemies for the leaderboard ranking.
- Win valuable prizes for the best predictions and high scores.

Realtime sports prediction games will change the way we watch TV.

Here's a simple breakdown of how it will work on the United Games platform.

Our free mobile app gets realtime updates from live sporting events, and presents predictive questions for players to answer as the game progresses.

Friends get together in living rooms and sports bars to watch a game and play along, answering questions before the game starts and during every break.

Players connect in person and through in-game social media. They earn points for every correct answer, and win valuable prizes over time.

Engage with real teams. Choose your expertise level. Play with friends. Play for free. No Gambling. Fun focused. Family friendly. Everybody wins.

Yea... Thats cool. So what?

## Earn passive recurring income as an independent affiliate.

In the United Games platform, tokens are the in-game currency that players use to gain access to higher levels of gameplay, winning them more points on leaderboards and bigger prizes. Tokens can be acquired by watching ads, by referring other players, and by direct purchase. As an affiliate, you have the opportunity to gain a commission on every token transaction.

### By inviting new players to sign up

When affiliates refer new players (and other affiliates), they earn maximum 10% cash commission on every token acquired in the lifetime of these players and the players that they refer.

### By inviting any player to play

When affiliates invite other players to join in a prediction game event, they earn maximum 5% cash commission on every token played during the event by these players and their invited friends.

**This is the first EVER realtime sports prediction app in the US,  
and it's gonna be BIG!**

As your affiliate partner, I will help you succeed.

- I will continuously recruit more players in our local area, and send them to your venue.
- I will provide printable downloads, like door posters and table tents, for you to print and promote your game night.
- I will be on hand, assisting in person on select game nights, to help get your events rolling.

As an affiliate event host, you will succeed best by

- Displaying posters and table tents promoting the next prediction game event.
- Offering deals during game nights for every new player that signs up.
- Inviting other affiliates to join your event on game night, bringing even more players to the event.
